

BUY SMART & CONNECT BETTER

Get the most for your budget with a better company, better support, and a better product.

An LED Sign is a Smart & Stable Investment for Community Outreach that represents your school and speaks to your community to promote events, notices, and fundraisers to increase awareness, safety, and participation.

We offer a host of products, proudly designed and supported right here in the USA including: Street & Building Displays, Virtual Scoreboards, and Live Video displays for your outdoor or indoor sporting venues.

- UP TO 7 YEAR COMPREHENSIVE PARTS AND LABOR WARRANTY**
All our components, communication devices, and on-site parts replacement are covered under warranty at no cost to you.
- LIGHTNING AND VANDALISM PROTECTION INCLUDED**
We'll provide financial reimbursement towards the insurance deductible for Lightning or Vandalism damage to your sign.
- EMERGENCY & AMBER ALERTS**
Support your community by enabling automated alerts in SM Infinity™ including weather, public safety, and amber/silver alerts integrated directly with IPAWS, a federal system managed by FEMA.
- 1 YEAR PROFESSIONAL CUSTOM CONTENT SERVICE**
Whether you're a principal, teacher or volunteer, the designers at SM Infinity make it easy to get professional content created just for you. That's over \$15,000 worth of value, free of charge.
- EASY TO USE CLOUDWARE OR SOFTWARE**
Manage your displays, users, content, and settings online 24/7 with SM Infinity. Or use our LightSpeed software for local communications, virtual scoreboards and live video options.
- ULTRA LOW POWER**
70% less power than other manufacturers and protected against corrosion & oxidation.

CHOOSE YOUR DISPLAY

vantageled.com/EDU

MANAGE YOUR DISPLAY FROM THE WEB WITH SM INFINITY OR LOCALLY WITH LIGHTSPEED

SM Infinity™

cloudware for LED display advertising

SM Infinity™ was built from the ground up to be 100% cloud-based. Control displays from any Internet-connected device (PC, Mac, iPad or Mobile) anytime from anywhere.

LIGHTSPEED

Local Media Software

The LightSpeed platform is the backbone that supports managing displays locally when cloud-based management is not available, or event based displays like virtual scoreboards and live video systems.
